December 14, 2011

Whoever touches the life of the child touches the most sensitive point of a whole which has roots in the most distant past and climbs toward the infinite future.
Maria Montessori

It is hard to believe that it is already Christmas time! The first half of the school year has just flown by.

The children have busy doing Christmas projects to take home, so if you are leaving for Christmas vacation earlier than the 23rd of December please let us know so we can send their projects home with them. It also would not be a bad idea to take your child's slippers home to wash them over the break.

With the remainder of time we have left before the break, we will be talking about the different holidays that are celebrated throughout the world. It is very important that the children learn the diversity and importance of holidays in different cultures.

Sound of the week
